

Monitoring Violations Annual Notice – Template 3-1A

IMPORTANT INFORMATION ABOUT YOUR DRINKING WATER

Monitoring Requirements Not Met for HAMILTON WATER DISTRICT MS0480007

Our water system violated drinking water requirements over the past year. Even though these were not emergencies, as our customers, you have a right to know what happened and what we are doing (did) to correct these situations.

We are required to monitor your drinking water for specific contaminants on a regular basis. Results of regular monitoring are an indicator of whether or not our drinking water meets health standards. During 2019 we did not monitor or test for Nitrate/Nitrite and therefore cannot be sure of the quality of your drinking water during that time.

What should I do?

There is nothing you need to do at this time.

The table below lists the contaminant(s) we did not properly test for during the last year, how often we are supposed to sample for Nitrate/Nitrite, how many samples we are supposed to take, how many samples we took, when samples should have been taken, and the date on which follow-up samples were (or will be) taken.

Contaminant	Required sampling frequency	Number of samples taken	When samples should have been taken	When samples were/will be taken
NITRATE/NITRITE	1 sample ever year	2	01/01/2019- 12/31/2019	By 12/31/2020

What is being done?

Samples will be taken in 2020

For more information, please contact **SUSAN HONEYCUTT** at **662-343-8387** or **P O BOX 66**

HAMILTON 39746.

Please share this information with all the other people who drink this water, especially those who may not have received this notice directly (for example, people in apartments, nursing homes, schools, and businesses). You can do this by posting this notice in a public place or distributing copies by hand or mail.
